

## Identifying Cats and Dogs

Think of someone in your classroom, professional life and personal life that exhibits the qualities of a “dog.” List their initials:

Think of someone in your classroom, professional life and personal life that exhibits the qualities of a “cat.” List their initials:

Look at the initials under those who most often operate from their *dog*. Using the chart of cat and dog correlations, what traits do these three people share? Where do they differ? Are there times you have observed them operate from their cat? When?

Look at the initials under those who most often operate from their *cat*. Using the chart of cat and dog correlations, what traits do these three people share? Where do they differ? Are there times you have observed them operate from their dog? When?

Discuss your ability to identify cat and dog traits in others, and how your understanding has grown since working with the concept.
